NEWS BULLETIN: UTC August 2009 Training

Run! Take cover! Technology is poised to take over the classroom! Scientists declare that robot teachers will soon replace human instructors. In fact, robot students will do our learning for us!

OK, so we've been hearing fantastic claims about how technology will impact training since the late nineties. Luckily for us much of the hype has been replaced with 10 years experience.

Come to the August UTC Training to learn what works, what's within your reach and get some great ideas for online training and multimedia resources for the classroom.
