Cyber Security

- Risk Assessment Tool
  - Valuable and Affordable Options
  - Assessment Done Via
    - Online Tool
    - On-Site Visit
    - Combination of Both
  - All Assessments Will
    - Identify gaps in policies & procedures with suggested remediation
    - Provide reports to meet requirements for meaningful use
    - Produce an overall risk score for the provider in comparison to their industry counterparts

Cyber Security

- Risk Consultation
  - Risk assessment vendor will include remediation services and offer ongoing support and maintenance
  - NeHII resource available for security process, policy, and procedure improvement
  - Ensure implementation of risk management and risk mitigation policies and procedures

Cyber Security

- Cyber Security Insurance Coverage
  - SilverStone will provide the appropriate level and type of insurance coverage through various insurance providers (mainly Chubb) to cover the identified risks
    - SilverStone will assist in educating participants on what isn't covered by insurance
    - NeHII, Chubb and SilverStone are researching a master policy to cover physician offices/clinics
    - Hospitals/health systems will carry their own policy

Cyber Security

- Proposed NeHII Requirements for Cyber Security Coverage
  - Mandate minimum level of insurance coverage
  - Business disruption plan
  - Liability limits
  - Crisis management
  - Language in agreements outlining minimum levels of insurance protections
  - Review business associates risk management program as necessary
