

Applied Behavior Analysis ABA Therapy

Why ABA Therapy?

ABA is a positive and motivating therapy that helps change & replace

unwanted behaviors in children & adults. ABA has been scientifically proven to treat behaviors associated with autism, such as: aggression, self injury, disruptive behaviors & poor sibling or peer relationships.

ABA is endorsed by reputable sources including: The American Medical Association, American Academy of Pediatrics and the U.S. Surgeon General.

Utah is 1 of the 37 states that have laws requiring health insurers to cover ABA Therapy!

Call for a free consultation 801-674-5352
