

Offering customized solutions to meet the needs of children who have Autism

**We're dedicated  
to your child's  
success**

Our highly trained and experienced staff cares about every child who comes to us. Combining that personal care with scientifically-backed interventions, we create customized plans that meet the needs of your child and your family.

**Lacey Anderson** M.Ed., BCBA  
Founder / Owner / Director

**Autism Solutions** offers a unique approach to Behavioral Therapy by using several different methods. We believe that the best ways to engage with a child is on their level and with materials that interest them. Therapists are trained to incorporate tasks into Natural Environment Teaching and play. This allows for each child to learn at an individualized pace, be motivated by things within their own environment, and generalize their skills in various situations.

Comprehensive  
Treatment Plans

ABA and Floortime  
Consultation and  
Therapy

Social Skills and  
Sensory Groups

Individual and  
Family Counseling
