

iBehave Therapy Group is... dedicated to providing comprehensive behavior supports to families and individuals. iBehave targets academic, functional, and social skills to improve overall quality of life through the use of multiple assessments and individualized treatment plans. iBehave will offer multi-media training, consulting, and therapy options via the internet.

What makes iBehave Therapy Group, LLC different?

Our team has extensive education and experience in understanding the needs of people with autism spectrum disorders. We have worked with children, adolescents, adults, and their families across the continuum of care, including public schools, day treatment settings and home therapy settings. Our goal is to partner with individuals and families to improve the lives of individuals with autism spectrum disorders.
