New Coronavirus (COVID-19)

If you have traveled recently to an area with ongoing spread of COVID-19 or have been exposed to someone with COVID-19, call your healthcare provider before visiting and tell your provider about your symptoms and exposure.

**WHO**

is at risk?

- People who live in or who have returned from an area with ongoing spread of COVID-19
- Individuals with close contact to a person with COVID-19

**HOW**

is it spread?

- Through the air after coughing or sneezing
- Close personal contact with an infected person
- Touching an object that has the virus on it, then touching your mouth, nose or eyes

**WHAT**

are the symptoms?

- Fever
- Cough
- Shortness of breath

Symptoms may appear in as few as 2 days or as long as 14 days after exposure

---

**To prevent illness**

- Wash your hands often
- Avoid contact with people who are sick
- Avoid touching your mouth, nose or eyes
