

Join the UTC for CAMTASIA!

Thursday, January 12th 9:00 – 12:00

DHS Rm 129 @ 120 N 200 W, SLC

RSVP to Amy for registration and software instructions.

Camtasia Studio Screen Recorder Software

Create training, demos and tutorials. It is truly powerful to teach and demonstrate visually, rather than through words alone.

Camtasia Studio screen recording will change the way you present, train and connect with your audience.

With Camtasia Studio, you can:

- Answer questions with screen recordings explaining how to use software and Web sites.
- Post PowerPoint presentations on the Web, complete with Picture-in-Picture, for virtual learning.
- Demonstrate features, new versions of software, Web sites and other applications.
- Rollout online training to the entire company and let them learn at their own pace.
