2019 Utah Communicable Disease Rule Changes
Manual Reporters

R386-702, the Utah Communicable Disease Rule, has been updated. The rule can be found at the Division of Administrative Rules website: https://rules.utah.gov/publicat/code/r386/r386-702.htm. Additional information is also available at http://health.utah.gov/epi/reporting. Following is a summary of important changes for manual reporters.

New additions to reportable conditions
- Demonstrated carbapenemase production in:
  - Acinetobacter species
  - Enterobacteriaceae species, including Enterobacter species, Escherichia coli, and Klebsiella species

Removed reportable conditions
- Aseptic meningitis

Additions to mandatory submissions of clinical material
- Demonstrated carbapenemase production in:
  - Acinetobacter species
  - Pseudomonas aeruginosa
  - Enterobacteriaceae species, including Enterobacter species, Escherichia coli, and Klebsiella species
