

Utah Specific Transaction Instructions

837 Health Care Claim: **Professional**
ASCX12N 837 (004010X098A1)

The Health Insurance Portability and Accountability Act (HIPAA) require all health insurance payers in the United States to comply with the Electronic Data Interchange (EDI) standards for healthcare as established by the Secretary of Health and Human Services. The ANSI ASC X12N 837P Version 4010 implementation guide is the standard of compliance -- available at www.wpc-edi.com. The following supplemental information is specific to Utah Medicaid and serves as a companion guide to the implementation guide. Utah Medicaid Provider Manuals are available at <http://www.health.utah.gov/medicaid/manuals/directory.php?p=Medicaid%20Provider%20Manuals/>.

Electronic Claims:

1. Telephone number for Medicaid EDI Customer Support is 801-538-6155 or 800-662-9651 option 3, option 5, option 2. Hours of operation are Monday through Friday 8 am to 5 pm, with the exception of Thursday when Medicaid will begin taking calls from 11 am to 5 pm.
2. AccessNow, telephone automated system for member eligibility, is available from 6 am to 12 midnight Monday through Saturday and 12 noon to 12 midnight on Sundays.
3. Medicaid companion guides are available at <https://health.utah.gov/hipaa/guides.htm>.
4. All EDI must pass through the Utah Health Information Network (UHIN), an independent, not-for-profit, value added network serving all payers in Utah. Contact UHIN at www.uhin.org or call 801-466-7705 x200. UHIN will assign a Trading Partner Number (TPN) for EDI.
5. Use your TPN and your National Provider Identifier (NPI)** to complete the online EDI Enrollment Form at <https://mmcs.health.utah.gov/hcfenroll2/index.jsp>. The TPN in the 835 field of the EDI Enrollment will receive the 835 electronic remittance advice.
6. "Atypical" providers are providers who bill for non-medical services, e.g. medical alert systems, meals on wheels. Providers who have been setup by the Medicaid Provider Enrollment team as atypical must bill with their Medicaid 12-digit Contract number. Atypical providers must submit their EDI transmissions to and receive their EDI transmissions from the Trading Partner Number (TPN) of HT000004-801.

* Does not apply to atypical providers.

** Atypical providers use their Medicaid 12-digit Contract number and TPN.

^A Addenda page numbers (August 2002 Final Review Draft)

7. The NPI and Tax ID (or SSN) must match to a single Medicaid contract. If a provider affiliates their NPI to more than one Medicaid Contract, a unique Taxonomy Code or unique address must be affiliated to their Contract. Update contract information with the Medicaid Provider Enrollment team at 801-538-6155 or 800-662-9651, menu 3, menu 4, or fax to 801-536-0471.
8. Providers, billers, and clearinghouses must separate batches by receiving TPN (HT000004-001, HT000004-005 and HT000004-801). If submitted as one batch, claims will be applied to the first receiver TPN on the submission.
9. Medicaid requires the reporting of the National Drug Code (NDC) in addition to the HCPCS/CPT code on provider administered drugs. The drug list requiring NDC is available at http://health.utah.gov/medicaid/pdfs/NDC_required4-08.pdf.
10. Transmit claims anytime 24 hours a day, 7 days a week. Medicaid's cut-off for claims acceptance is before the end of business on Thursday. Transactions received after the end of business on Thursday may miss the adjudication cycle and will process the following weekend.
11. A 997 Functional Acknowledgment will be available for pickup (download) within two hours of transmission for all 837 transactions. If you find no 997, contact OS&D.
12. A 277FE Health Care Claim Status Notification - Front End Acknowledgment will usually be available for pickup (download) the next business day after the transmission of the 837. If you find no 277FE, contact OS&D. This transmission assigns a 17-digit Transaction Control Number (TCN) to any claim that is accepted into the Medicaid Management Information System (MMIS). The lack of a TCN indicates a claim was rejected. Use the Claim Status Codes <http://www.wpc-edi.com/content/view/715/1> to determine why the claim was rejected. Make corrections and resubmit.
13. Medicaid Customer Service agents are **unable** to see claims that have not processed through at least one weekend adjudication cycle. Use the 997 and 277FE reports to determine status of electronic submissions prior to a weekend adjudication cycle. After an adjudication cycle, use the 276 transaction for claim status.
14. Utah Medicaid cannot accept a line with a negative submitted charge (method used by Medicare for adjusting claims). A negative amount will generate the 484 error code (Business Application Currently Not Available). For adjustments, Medicaid requests submission of a void or replace claim (see instructions below).
15. Transmit claims for all Medicaid programs (Non-Traditional Medicaid, Primary Care

* Does not apply to atypical providers.

** Atypical providers use their Medicaid 12-digit Contract number and TPN.

Network, Select Access, Baby Your Baby, etc.) to Medicaid Fee-For-Service (FFS), HT000004-001 or Medicare/Medicaid Crossover claims to HT000004-005. Atypical providers must use HT000004-801 for all transactions. Services not covered by Medicare should be billed to Medicaid FFS using the policy and procedures of Medicaid.

16. Units must be reported in full units. Utah Health Care Financing's policy is to round to the nearest unit. No decimals will be accepted.
17. Providers should submit their own corrections by submitting either a replacement or void claim. If the original claim was denied, submit claim as an original claim. Medicaid will allow for submission of electronic corrections or voids to a previously paid claim. Acceptable Values: "7" – Replacement "8" – Void. The TCN of the claim to be replaced or voided must be reported. Do not submit hyphens or spaces. The following is information about replacement/void claims:
- The provider number on the original claim must match the provider number being submitted on the replacement claim, or the claim will reject.
 - If the TCN of the original claim cannot be identified in the Medicaid system, or the claim has already been reprocessed, the replacement/void claim will be rejected.
 - Replacement claim(s) void the original claim. The replacement claim is then processed in the Medicaid system as an original claim.
 - If there is a line item that did not pay on the original claim, it is not necessary to submit a replacement claim. You may submit a new claim for only the services not paid on the original claim. However, if additional units are being added to an already paid procedure code, or you are changing procedure codes, a replacement claim must be submitted.
 - If wanting to replace an original claim that was split by Medicaid for processing, it is necessary to submit a void claim for each of the split claims. A new original claim would then be submitted for processing.
 - If a claim was paid under the wrong provider number, submit a void claim with the provider number of the original claim and a new original claim with the correct provider number.
 - If the original claim was denied, do not submit a replacement claim. Make the necessary correction(s) and resubmit the claim as an original claim.
