**Utah Specific Transaction Instructions  
ENCOUNTER RECORDS**837 Health Care Claim: Institutional  
ASCX12N 837 (005010X223)

The Health Insurance Portability and Accountability Act (HIPAA) requires that Medicaid, and all health insurance payers in the United States, comply with the Electronic Data Interchange (EDI) standards for healthcare as established by the Secretary of Health and Human Services. The ANSI ASC X12N 837P Version 4010 implementation guide has been established as the standard of compliance. For encounter records, Utah Medicaid will implement the Addenda corrections for the Health Care Claim: Institutional (005010X223). The implementation guide is available electronically at [www.wpc-edi.com](http://www.wpc-edi.com). The following supplemental requirements are specific to Utah Medicaid and are intended to serve as a companion guide to the HIPAA ANSI X12N implementation guide.

**Requirements:**

1. An Electronic Commerce Agreement must be in place. The form is available at [www.UHIN.org](http://www.UHIN.org).
2. A Utah Medicaid EDI Enrollment form must be completed and on file prior to the submission of encounter records. The form is available at [http://www.health.utah.gov/hipaa/medicaid\\_pcn.htm](http://www.health.utah.gov/hipaa/medicaid_pcn.htm). Transactions submitted without an Electronic Transmitter Identification Number (ETIN) or Trading Partner Number (TPN) on file with Medicaid will be rejected back to the sender.
3. 837 encounter records may be sent anytime 24 hours a day, 7 days a week.
4. The 12-digit Medicaid Provider number will not be allowed on or after May 23, 2007, unless you are a provider type not eligible for the NPI. The Provider Taxonomy Code is required if there are multiple provider types/services under the same NPI.
5. Effective January 1, 2007, Medicaid requires the reporting of the National Drug Code (NDC) in addition to the HCPCS/CPT code on all drugs identified by a NDC.
