

Federally Qualified Health Centers

Utah's Community Health Centers receive Public Health Service (PHS) Act Section 330 funds and serve medically underserved areas (MUAs), or serve a medically underserved population (MUP), or otherwise meet the statutory requirements for receiving federal community health center program funds.

The Community Health Centers are committed to helping Utah's underinsured children access Vaccine for Children (VFC) vaccines.

Please call your nearest clinic to verify hours for service and provider availability.
