

Additional Inspection Fee

We are required by the state legislature to implement a \$25 fee for noncompliant facilities. Effective July 1, 2009, this fee is charged as follows:

- Each provider will have one follow-up inspection (if needed) after their Announced and Unannounced Inspections, and one follow-up inspection (if needed) after each Complaint Investigation. If additional follow-up inspections are needed because noncompliance was found on the first follow-up inspection, the provider will be charged \$25 for each additional follow-up inspection that is needed.
- If you are issued a conditional license or certificate for noncompliance to the rules, there will be a \$25 charge for each monitoring inspection that takes place during the period of the conditional license or certificate.
- For new providers who are in the process of becoming licensed or certified, if there are more than 5 items that need to be corrected after the pre-license/certificate inspection, an additional fee of \$25.00 will be charged. If more than one follow-up inspection is required, \$25.00 will be charged for each additional inspection.

If you have any questions regarding this fee, please [click here](#) to contact your regional Licensing office.
