If a facility is open six months of the year or less (for example, a ski resort), only one disaster drill is required.

Always Level 3 Noncompliance.

1. **Owners & Members of the Governing Body**

Owners are anyone with a 25% or greater share in the business, or anyone with less than a 25% share who is in the facility anytime during hours of operation. If an out of school time program's legal structure is a corporation, a state or local government, or a private non-profit agency, and they run other facilities in addition to the out of school time program (for example, a ski resort, a recreation center, or a domestic violence shelter), the owners and members of the governing board are anyone who performs one or more of the functions listed below.

- A. *They have unsupervised access to the children in the program or they are in the out of school time program's room(s)/area(s) during hours of operation.*
- B. *They make decisions regarding the day-to-day operations of out of school time program.*

2. **Employees**

Employees are anyone hired to work for the out of school time program. For programs located in buildings that also house other activities (for example, a city or county recreation center, a community center, a church, or a school), non-program employees (those who do not have any duties working with children in the program), are not required to submit background screening documents, provided the licensees first submit a written policy explaining how they will ensure that non-program employees will not have unsupervised access to children in the program, including when children in the program are in the bathroom.

If employees are on leave, for example, maternity leave, and are considered employees of the program while on leave, their names are to be included on renewal background screening forms while they are on leave. If employees quit and then return to work, or are on leave and not considered employees of the program while on leave, they are to submit new initial background screening forms when they return from leave.

3. **Providers**

Providers are anyone who interacts with one or more children in the program.

4. **Volunteers, except parents of children enrolled**

Volunteer are any volunteer who works with the children or is in the out of school time's room(s)/area(s) when the program is open. When a parent who volunteers for the out of school time program receives compensation (either monetary or free enrollment) for volunteering, he/she is considered an employee under #2 above. A parent of an enrolled child who has not passed a background screening may not have unsupervised access to any child in the program except his/her own child.

Volunteers include students completing a practicum for a high school or college course that involves working in a regulated out of school time program, unless the requirement is that the student observe the children and not interact with them. If the student only observes the children and does not interact with them, he/she does not need to submit background screening documents. If a student is being paid to complete a practicum, he/she is considered an employee under #2 above.

5. **Anyone who has unsupervised contact to a child in the program**

Level 3 Noncompliance.

(2) The provider shall maintain the following records for each currently enrolled child on-site for review by the Department:

- (a) an admission form containing the following information for each child:**
 - (i) name;**
 - (ii) date of birth;**
 - (iii) the parent's name, address, and phone number, including a daytime phone number;**
 - (iv) the names of people authorized by the parent to pick up the child;**

R430-70-9: RECORDS.

- (vii) **contact person for the child; and current emergency medical treatment and emergency medical transportation releases with the parent's signature;**

Rationale / Explanation

The health and safety of individual children requires that information regarding each child be kept at the center and available to staff on a need-to-know basis. Names of individuals authorized to pick children up are needed to prevent children from being taken by unauthorized individuals. Emergency treatment consent is needed in order to obtain medical care for children in emergencies. Admission of children without this information can leave the staff unprepared to deal with children's daily and emergent health needs. CFOC, 3rd Ed. pgs. 386-391 Standards 9.4.2.1, 9.4.2.2, 9.4.2.3, 9.4.2.4, 9.4.2.5, 9.4.2.6

Review of records by Department staff is used to determine, in part, compliance with the licensing rules. CFOC, 3rd Ed. pg.380 Standard 9.4.1.5

Enforcement

Records must be kept for all enrolled children, including "drop-in" children.

This rule is in compliance if the information required in the admission form is on another form.

Parents may list more than one child on an admission form but a separate health assessment is required for each individual child.

Level 2 Noncompliance if there is not an admission form.

Level 3 Noncompliance if the admission form is missing any information.

- (2) **The provider shall maintain the following records for each currently enrolled child on-site for review by the Department:**
(b) **a current annual health assessment form as required in R430-70-14(5);**

Rationale / Explanation

The health and safety of individual children requires that information regarding each child be kept at the center and available to staff on a need-to-know basis. Information about each child's health status and needs and medications is required to ensure that caregivers meet the needs of each individual child. Admission of children without this information can leave the center unprepared to deal with children's daily and emergent health needs. Records of child injuries can be used to discern possible child abuse, and to help prevent future injury. CFOC, 3rd Ed. pgs. 386-391 Standards 9.4.2.1, 9.4.2.2, 9.4.2.3, 9.4.2.4, 9.4.2.5, 9.4.2.6.
