

Lack of Coverage in Utah: The Nature of the Problem

Time Uninsured by Poverty Status, Utah, 2001

Source: 2001 Utah Health Status Survey.

Note: The Federal Poverty Level (FPL) for 2001 was \$17,650 for a family of four.

- Uninsured persons living at 101-200% of poverty were more likely to be uninsured for one year or more than other uninsured persons (72.0%), followed closely by those persons living below 100% of poverty at 71.3%.

2001 Utah Health Status Survey, Utah Department of Health

- 66.9% of uninsured persons in Utah reported having been without health insurance for at least one year.
- Uninsured males were more likely to report being uninsured for one year or more than uninsured females.
- Davis County health district had the lowest percentage of uninsured persons reporting to be uninsured for one year or more.
- About a third of uninsured persons in the survey fell into a group that could be considered “chronically uninsured.” This group had lacked health insurance coverage for four years or longer.

Lack of Coverage in Utah: The Nature of the Problem

Reasons for Being Uninsured, Utahns Without Health Insurance, Utah, 2001

 Note: Respondents were allowed to cite more than one reason.

Reasons for Being Uninsured by Poverty Level, Utahns Without Health Insurance Coverage, 2001

Source: 2001 Utah Health Status Survey.
 * Not enough data cases to provide a precise estimate.
 Note: The Federal Poverty Level (FPL) for 2001 was \$17,650 for a family of four. Respondents were allowed to cite more than one reason.

- Over 50% of those who were uninsured reported that they could not afford health insurance. This varies little when broken down by poverty level.
- One third of Utahns who were uninsured reported that their “employer does not offer insurance” as a reason they were uninsured.

2001 Utah Health Status Survey, Utah Department of Health

- 33.1% of uninsured Utahns said that their employer not offering insurance was a reason they were without health insurance coverage.
- Southeastern health district had the highest percentage of uninsured persons (53.9%) who reported that their employer did not offer insurance as a reason for being uninsured.
- 39.5% of uninsured full time employees reported that a reason they did not have insurance was that an employer did not offer it.

2001 Utah Health Status Survey, Utah Department of Health

- Persons aged 50-64 years were more likely than other age groups to indicate that they were uninsured because they were a part time or temporary employee.
- Females were more likely than males to report being a part time or temporary employee as a reason they lacked health insurance.
