

Problems With Access to Health Care

Problems With Access to Health Care

Figure 36.1 Problems With Access to Health Care, Utah, 2005

Source: 2005 Utah Health Status Survey

* Note: Estimate based on insured Utahns only. All others based on entire Utah population.

- Access to health care was measured in several ways in the Utah Health Status Survey.
- The estimate for “insurance company does not cover service” is only for the insured population. All other estimates on this page are for the entire Utah population.
- The most common problem accessing health care was due to the inability to afford services (12.9%). This was independent of insurance coverage.

Table 36. Percentage of Persons Reporting Problems With Access to Health Care by Type of Access Problem, Utah Residents, 2005

Access Problem	Survey Estimates of Persons by Type of Access Problem			
	Percentage of Persons With Each Type of Access Problem ¹			Number of Persons With Each Type of Access Problem ²
	95% Confidence Intervals			
	Lower	Upper		
Ins Company Does Not Cover Service ³	8.0%	7.1%	9.0%	179,000
Could Not Find Services in the Area	2.9%	2.4%	3.4%	72,700
Could Not Afford the Services	12.9%	11.8%	14.1%	326,700
Could Not Afford Prescription	7.7%	6.9%	8.5%	193,900
Concerned with Residency Status	0.2%	0.1%	0.5%	6,200
Total, All Utahns	100.0%			2,469,200

1 Asymmetric confidence bounds were calculated using the logit transformation.

2 Rounded to the nearest 100 households.

3 Estimate for this row based on insured Utahns only. All others based on entire Utah population.

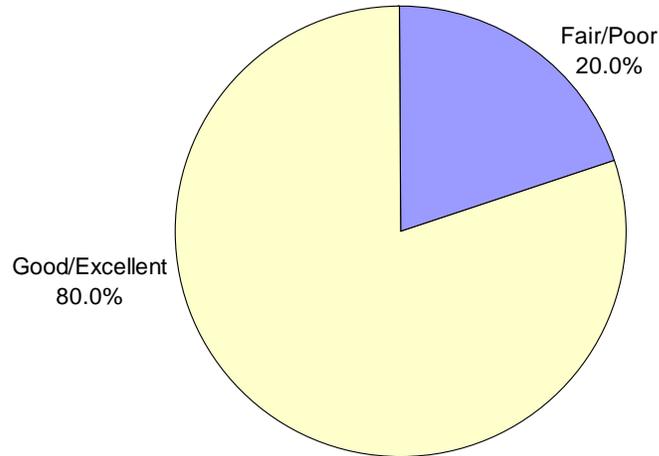

Note: Because individuals could choose more than one reason, figures sum to greater than 100%.

- Approximately 326,700 Utahns reported problems accessing health care because of cost.
- 7.7%, or 193,900 Utahns, reported problems with health care because they could not afford prescription medications.

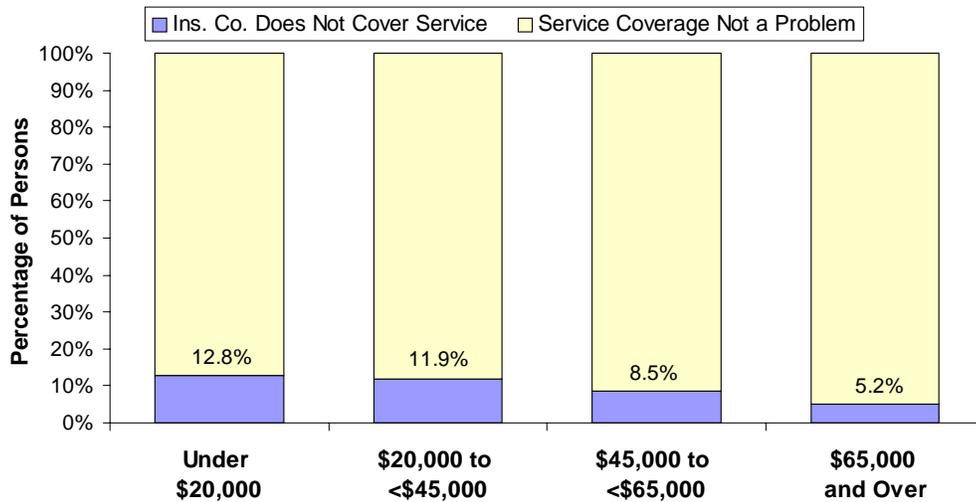

Problems With Access to Health Care

Figure 37.2 Access Problems Because Insurance Company Does Not Cover Service by Annual Household Income, Insured Utahns, 2005

Source: 2005 Utah Health Status Survey

- Overall, 8.0% of insured Utahns reported that their insurance company refused to cover a service.
- One-fifth of insured Utahns in fair or poor health reported problems with access to health care because their insurance company refused to cover a service.

 *** Not enough data cases to provide a precise estimate

Figure 38.2 Access Problems Due to Inability to Find Services in Area by Annual Household Income, Utah, 2005

Source: 2005 Utah Health Status Survey

- Utahns living in Southeastern Utah health district were the most likely to report problems due to an inability to find services in their area (15.1%).
- Utahns living in households with annual incomes under \$20,000 were more likely than others to report problems finding services in their area.

Problems With Access to Health Care

Figure 39-40.1 Access Problems Due to Cost by Annual Household Income, Utah, 2005

Source: 2005 Utah Health Status Survey

Figure 39-40.2 Access Problems Due to Insurance Status, Utah, 2005

Source: 2005 Utah Health Status Survey

- The inability to afford services and the inability to afford prescriptions were both negatively associated with household income. As income increased the likelihood of reporting one of these problems decreased.
- Uninsured Utahns were significantly more likely than insured Utahns to report problems affording services or prescriptions.

1 Population estimates of sex, age groups, and local health districts based on 2005 baseline projections, Governor's Office of Planning and Budget, REMI model system; all others based on the 2005 UHSS and rounded to the nearest 100 persons.

2 Asymmetric confidence bounds were calculated using the logit transformation.

3 Rounded to the nearest 100 persons.

4 Figures in these columns may not sum to the total because of missing values on the grouping variables.

5 These rates have not been age-adjusted.

*** Insufficient sample size for calculation of population estimates.

Table 41. Percentage of Persons Reporting Problems With Access to Health Care Because They Were Concerned About VISA, Citizenship, or Residency Status by Sex, Age Group, Local Health District, Annual Household Income, Health Status, and Health Insurance Coverage, Utah Residents, 2005

Demographic Subgroup	Population Size		Survey Estimates of Persons Reporting Problems With Access to Health Care Because They Were Concerned About VISA, Citizenship, or Residency				
	Percentage Distribution	Number of Persons ¹	Percentage of Insured Persons ²			Number of Persons ^{3,4}	Percentage Distribution by Demographic Subgroup ⁴
			95% Confidence Intervals
