

UTAH WATER FLUORIDATION LEVELS

A half-dose daily fluoride supplement is indicated for residents of communities that have naturally occurring fluoride present in the water supply between 0.3 to 0.6 ppm (mg/L). No daily fluoride supplement is indicated for residents of communities which have optimum levels of adjusted or naturally occurring fluoride above 0.6 ppm (mg/L). A full daily fluoride dose supplement is indicated for all other Utah communities.

Community water systems not listed below have fluoride levels less than 0.3 ppm and therefore, require full fluoride supplementation.

Fluoride levels between 0.3 and 0.6 ppm (mg/L)		Fluoride levels greater than 0.6 ppm (mg/L)
