

**Utah Department of Health  
Preventive Health and Health Services Block Grant (PHHS BG)  
Executive Summary, FFY2012 Application**

**Grantees must address at least one of the following program goals set by the Centers for Disease Control and Prevention:**

1. Achieve health equity and eliminate health disparities by impacting social determinants of health;
2. Decrease premature death and disabilities due to chronic diseases and injuries by focusing on the leading preventable risk factors;
3. Support local health programs, systems, and policies to achieve healthy communities;
4. Provide opportunities to address emerging health issues and gaps.

**Highlight of proposed Federal Fiscal Year (FFY) 2012 Efforts:**

**Physical Activity, Nutrition, and Obesity and Local Health Department Partnerships for Obesity:** Implement efforts to prevent obesity through policy and environmental changes in schools and communities to support healthy eating and physical activity. Supported efforts include the Gold Medal Schools program. Funding supports both state and local efforts, via Utah's Local Health Departments and Schools. (\$473,560)

**Local Health Department Partnerships for Injury Prevention:** Work with Local Health Departments and other partners to implement strategies to reduce injury-related morbidity and mortality, with a focus on seat belt use among teens. (\$114,983)

**Rape Crises and Prevention:** (Federally mandated set-aside) Provide rape crises intervention services, including a 24 hour toll-free hotline, and training to other rape crises centers, with a focus on Hispanic/Latino populations in Salt Lake County. (\$54,686)

Due to a near \$300,000 reduction in grant funds in FFY12, support for obesity and injury prevention was reduced, and PHHS BG funding for community assessment and environmental health efforts was eliminated. Approximately 71% of funds support local entities.
