

Dear Utah CHIP Participant:

This letter is to announce the annual health plan change period for the Utah Children's Health Insurance Program (CHIP). This opportunity is only available once a year where you are able to enroll in a different CHIP health plan. **If you want to change** your health plan selection, **you must call** between May 15, 2008 and June 16, 2008. **If you don't want to change, you do not need to contact us.**

CHIP currently offers coverage through Molina Healthcare and the Public Employees Health Program (PEHP). When deciding whether or not to switch between the CHIP health plans, please keep in mind that **the benefits and copayments with each of these plans are the same but the list of providers may be different.** We suggest you check with your current providers to make sure they accept the health plan you are considering. On the back of this letter, you will find a health plan selection guide. Please refer to the guide to see which plans are available in your county.

If you decide that you would like to change your health plan, you must contact a Health Program Representative (HPR) and they will assist you with making this change. To contact an HPR, **call toll-free 1-866-772-1261**, choose option #2, and when prompted, enter your zip code.

The change will be effective July 1, 2008. New CHIP cards and provider information will be sent to you by mail.
