

# Learn the Signs. Act Early.

## DEVELOPMENTAL DISABILITIES WORKSHOP

If you have ever found yourself wondering if your child is “on track” with their development, or if you have concerns about possible delays in language, social, or emotional development, take the opportunity to meet with **Dr. Tracy Golden**, the “Learn the Signs/Act Early” Ambassador for Utah. Dr. Golden will be available to answer questions about identifying healthy developmental milestones in your child. Golden will share free materials and resources that can help you track social, emotional, and cognitive development which can be used to identify possible warning signs of delays.

If you have concerns and would like further information, referral information will be available for local resources like the Early Intervention system, as well as services you can access for additional screening.

*Please note, this workshop is not a substitute for screening and assessment services by a medical provider. It is for education and awareness purposes only.*
