

Saliva Collection on Infants for CMV Testing

State of Utah Department of Health

Children with Special Healthcare Needs Bureau

Utah Early Hearing Detection and Intervention (EHDI)

October 2019

Where do I get saliva kits?

Great Question!

ARUP

Option 1: If your facility or affiliated hospital is an ARUP client, kits can be obtained through ARUP eSupply.

- Access eSupply in ARUP Connect or contact Client Services at (800) 522-2787, clientservices@aruplab.com or chat online.
- Not yet enrolled at ARUP Connect? Visit <https://www.aruplab.com/testing/client-supply> to find out more about how ARUP Connect can work for you.

- Please specify ARUP supply #49295 and number of collection kits required

Option 2: If kits are not obtained from ARUP as a client supply:

- Kits can be purchased in bulk from DNA Genotek.
- Sales Contact: Cristina Slatculescu can be reached @ 1-866-813-6354, Ext 2334
- Shelf life is 24 months from the date of manufacture.

Order Volume	Cost + shipping
25 kit minimum order	\$9.50/kit + \$50 handling fee + shipping cost
50+ kits	Same as above, no minimum handling fee
Above 1000 kits	Volume discounts to apply. *Note that at 1000 kits the price is \$8.50

Where do I get saliva kits?

Great Question!

Intermountain Central Lab

IMC runs the CMV Qual PCR on Saliva at their internal lab. They order the ORA Collect via their purchasing department. Existing clients can order the supply item via their Lab Customer Service Department via phone, fax, email, or online.

Below is a link for ordering supplies online. The item name is **OC-100 CMVPCR Saliva Kit**. New clients will need to work with Outreach Provider Liaison, Steve Gordon, for new services.

Steve Gordon can be contacted via email at Steve.Gordon@imail.org.

Intermountain Laboratory Client Services

Phone: 801-507-2110

Fax: 801-507-2315

<https://intermountainhealthcare.org/services/lab-services/for-clients/order-lab-supplies/>

If dropping off specimen within 36 hours of collection, room temperature is sufficient. If dropping off later than 36 hours, refrigeration is needed and sample will stay good for 7 days cool.

Wear gloves when collecting saliva samples.

Please refer to the video below for simple tips on how to collect a saliva specimen!

<https://www.youtube.com/watch?v=K95ff8bKzPY>

No breastfeeding/breastmilk at least two hours prior to collection.

Any University of Utah facility that has a laboratory on-site will have a pick-up for specimens. Simply take your specimen to any of those facilities or drop off at ARUP.

**Remember when dropping off specimens, hand the bag to appropriate lab personnel with the following items:
Copy of insurance card, Copy of order for CMV, and specimen.**

ARUP is located at 500 Chipeta Way
Salt Lake City, Utah 84108
