CODE SILVER

SHOTS FIRED!!!

What will a Code Silver look like?

**Every incident will be different,
but there are some
commonalities**

The shooter may fit our pre-conceived notion of what he should look like...

...or not

She was a shooter planted by the police at our recent Code Silver exercise

What should I do?

Do I run?

Where can I run to?

Is there a way out?

Do I stay?

Where can I hide?

Is there a safe place?

How can I help?

What will the police want me to do?

Provide information

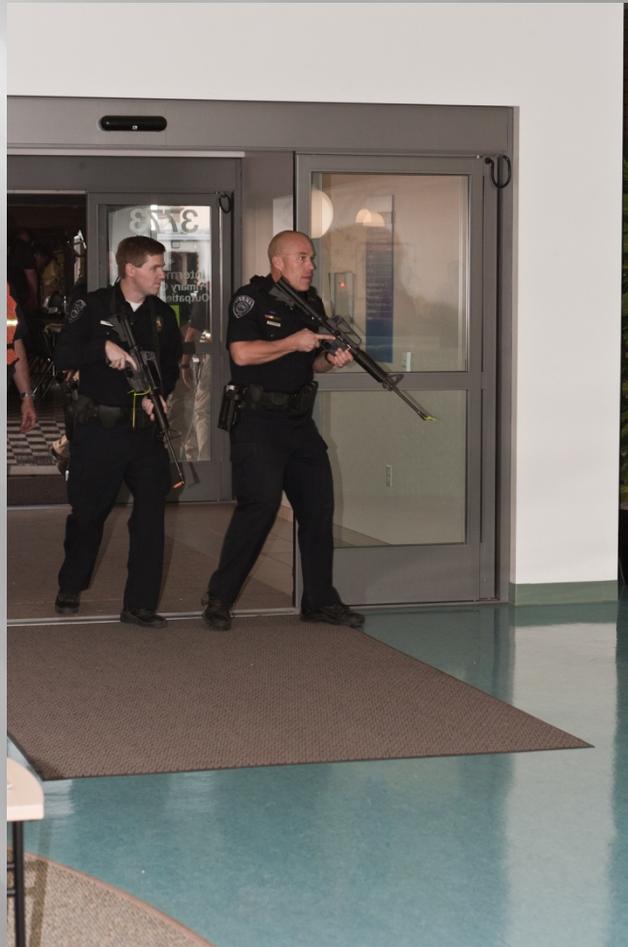

Be Cooperative

Render Aid If Possible

What will the police do?

Patrol Officers Will Respond First

S.W.A.T. Will Arrive

Everyone Is A Suspect

Officers Will Be At High Readiness

What is their job?

Remove The Threat

Officers Must Clear The Entire Building

I will survive!
