

Meet the Utah Department of Health

health.utah.gov
801-538-6003
288 North 1460 West
Salt Lake City, Utah 84116

WHO WE ARE

We strongly believe that health is critical for enjoying a prosperous life. Our vision is for Utah to be a place where all people can enjoy the best health possible, where all can live, grow, and prosper in healthy and safe communities.

WHAT WE DO

We are more than just birth certificates and Medicaid! In fact, with three divisions, 26 offices and bureaus, and more than 50 programs, we serve the residents of Utah across their entire lifespan, from healthy pregnancies to preventing falls among older adults and everything in between.

We work closely with Utah's 13 local health departments and numerous community partners to create healthy environments to live, work, and play in and to ensure access to quality health care.

UtahDepOfHealth

Public health affects everyone.

Public health affects every Utahn, every day. Along with Utah's 13 local health departments and numerous community partners, we detect and prevent outbreaks of infectious disease, promote healthy lifestyles and safe behaviors, protect residents from the effects of man-made and natural disasters, and provide access to health care services for Utah's most vulnerable populations.
